Dear Hiring Manager,

I am writing to express my interest in a remote internship or entry-level opportunity in technology at your organization. As a Computer Science student at Brandon University with hands-on experience in web development, Java programming, and cybersecurity, I am eager to contribute to your team while continuing to grow professionally.

Recently, I developed a responsive business website for an engineering firm, created a restaurant ordering system in Java, and earned the Google Cybersecurity Certificate, where I gained practical experience in threat detection, access control, and security best practices. To showcase my projects and skills, I also built and maintain a personal portfolio website.

In addition to technical expertise, I bring strong problem-solving skills, self-motivation, and the discipline required to manage academic responsibilities alongside continuous self-learning. I am especially passionate about building secure, efficient systems that solve real-world problems and improve lives.

I would be excited to bring my enthusiasm, adaptability, and technical skills to your team. Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your organization.

Sincerely,
